Pursuant to 16-22-112, Colorado Revised Statutes, law enforcement agencies are authorized to release information about registered sex offenders living within the agency's jurisdiction to residents of the jurisdiction. Sex offender registry information is made available to citizens, so they may better protect themselves and their children from known sex offenders.

The general assembly declares, however, that in making this information available to the public as provided in this section and section 16-22-110(6), it is not the general assembly's intent that the information be used to inflict retribution or additional punishment on any person convicted of unlawful sexual behavior or of another offense, the underlying factual basis of which involves unlawful sexual behavior.

You may obtain a copy of the list from the Custer County Sheriff's Office. (\$5.00 fee)

The Colorado sex offender registry includes only those persons who have been required by law to register and who are in compliance with the sex offender registration laws. Persons should not rely solely on the sex offender registry as a safeguard against perpetrators of sexual assault in their communities. The crime for which a person is convicted may not accurately reflect the level of risk.
